Linnear

Colorker®

About

Linnear endless wood

Colorker presents Linnear, a wooden cladding capable of blending elegantly into multiple contexts. With a finger-jointed concept and available in four shades (Olive, White, Natural and Nut), Linnear is the perfect match for rooms.

Linnear invites you to experience through touch with its minimal concept relief, characterised by its straight lines which give it a clean and subtle design look, following the 'less is more' trend.
