About Onyx

Tele di Marmo Onyx celebrates the seductive beauty of onyx: its intriguing translucent quality; the rich, contrasting transparent layers and the infinite shifts in tone. The collection presents five ceramic marbles that not only reveal the secret beauty of nature, but also strive for the perfection and uniqueness of a work of art.

About Onyx

The magnificence of the large size accentuates the deep-set patterning and chromatic opulence of the five exquisitely natural reference materials, reworked and calibrated in every detail. The shade variations and transparent effects that typify onyx are stratified below the surface, for a refined three-dimensional impression. Thanks to its exceptional flatness and completely uniform mirror finish, Tele di Marmo Onyx is a sophisticated and sumptuous ceramic marble collection, destined to stand the test of time.
